### Sanitize and Deodorize with Oakite® Sanitizer 4

New Providence, New Jersey -- Chemetall Oakite, a leader and innovator in cleaning and sanitizing chemistries, presents Oakite® Sanitizer 4, a new four tier quaternary ammonium germicide disinfectant for use in food processing and pharmaceutical operations.

"We incorporated the latest technology in developing Oakite® Sanitizer 4," said Michael Brancato, Industry Manager, Food and Pharmaceuticals. "Testing has shown this product to be effective against a wide variety of pathogens, including, Listeria, Ecoli bacteria, fungi, and mold."

Liquid Oakite® Sanitizer 4 unites fast killing action with excellent residual bacteriostatic protection. When used at concentrations up to 400 ppm, Oakite® Sanitizer 4 does not require a potable water rinse. The FDA finds the ingredients in Oakite® Sanitizer 4 to be acceptable, making the product ideal for use in USDA inspected food processing plants, pharmaceutical plants and other applications requiring sanitizing and germicidal treatment.

Chemetall Oakite, with headquarters based in New Providence, NJ, has been developing, manufacturing, and supplying state-of-the art specialty chemical products since 1909. The QS9000/ISO 9001 certified company offers a wide spectrum of products ranging from cleaners, sanitizers, chain lubes, defoamants, and water and waste treatment programs to complete product offerings. Chemetall Oakite's integrated products, chemical management systems, process equipment, and service programs facilitate the achievement of the Food and Pharmaceutical industries' processing needs.

Chemetall Oakite, a world-class specialty chemical company with subsidiaries throughout the world, is a member of the Rockwood Specialties Inc., a renowned international corporation.
