

Driving Sustainability

starts with Chemetall Surface Treatment Technologies

BASF
We create chemistry

Chemetall
expect more⁺

+ Cut it.

Reduce concentrations of adaptable lubricants.

GardoLube®

Designed for the most demanding drawing and forming applications

Tech Cool®

Premium synthetic and semi-synthetic metalworking fluids

+ Clean it.

Cleans faster and at ambient temperatures.

Gardacid®

Acid and pH neutral etching and derusting

Gardoclean®

Versatile cleaners and rust preventives

+ Coat it.

Build surfaces that last.

Gardobond®

High-efficiency conversion coatings

Oxsilan®

The gold standard of advanced pretreatments

Gardoflex®

Low-temperature, multi-metal, zinc phosphate

Gardofine®

Low-temperature, manganese phosphate

CathoGuard®

Electrocoats raise the bar on throw power and edge protection

+ Control it.

Automated process control optimizes efficiency and quality.

Gardo® Control

Realtime monitoring technologies

Non-Destructive Testing

Penetrant and Magnetic testing

+ Conserve it.

Save water, energy, reduce consumables and waste.

Gardo® Pure

Full line of wastewater purifiers

Exceptional corrosion protection and remarkable adhesion

Vastly lower carbon footprints due to superb efficiencies
