March 3, 2014

Chemetall Partners with The Powder Coating Institute to Host Regional Powder Coating 101 Training

Chemetall is proud to host the Regional Powder Coating 101-Basic Essential on June 10 – 11, 2014, at Chemetall's new facility in Blackman Township, Michigan. The \$25 million chemical plant covers 200,000 square feet and houses administrative, manufacturing, warehousing operations, and physical testing laboratory. Over 900 Chemetall products are produced at the 40-acre Blackman site for applications in surface treatment, metal fabrication, cleaning and sanitizing.

The Basic Essentials in Coating course will give you an introduction to powder coatings with focus on materials, application, reclamation, testing/evaluation, quality control, manufacturing process related to coatings, and much more. You will gain knowledge of powder coatings and the powder coating process from expert industry speakers.

The course includes 1.5 days of classroom training with a plant and physical testing lab tour. For more information or to register please visit the PCI website at <http://www.powdercoating.org>.

The Powder Coating Institute represents the North American powder coating industry, promotes powder coating technology and communicates the benefits of powder coating to manufacturers, consumers, and government. Formed on May 1, 1981, as a non-profit organization, PCI works to advance the utilization of powder coating as an economical, non-polluting and high quality finish for your industrial and consumer products.

Chemetall has been developing, manufacturing, and supplying state-of-the-art specialty chemical products since 1909. The ISO 9001 company offers a wide spectrum of products ranging from metalworking fluids and drawing & stamping compounds to cleaners, rust preventatives and surface treatment chemistries. Chemetall's integrated products, chemical management systems, process equipment, and technical service programs deliver efficient and cost effective solutions for industrial manufacturing needs. Expect more with Chemetall.

Chemetall is a world-class specialty chemical company and a global provider of chemical technologies based in Frankfurt/Main, Germany. In addition to the North American headquarters in New Providence, New Jersey, other locations in the Americas include Jackson, Michigan; La Mirada, California; Bramalea, Ontario; Jundiai, Sao Paulo, Brazil; and Querétaro, México. Chemetall is a division of Rockwood Holdings Inc., a global specialty chemicals and advanced materials company traded on the New York Stock Exchange.
