Chemetall to Highlight New Environmentally Compliant Technologies Including Chemetall's Advanced Pretreatments at Coating 2013.

New Providence, NJ – Chemetall, a leading developer, manufacturer, and supplier of state-of-the-art specialty chemical products will exhibit at Coating 2013 on October 8 - 10, 2013 in St. Louis, MO (USA). At this show, Chemetall will showcase their innovations in environmentally focused metalworking fluids and advanced pretreatments at booth 504.

Chemetall serves the manufacturing community with its Cut It, Clean It, Coat It, Treat It, and Control It approach to market. The company's broad range of innovative technologies include metal cutting and forming fluids, cleaning products, pretreatment chemistry, rust preventatives, paint strippers and paint booth chemistry. Markets served include automotive, aerospace, defense, medical device, energy and general industries. In addition to their product offerings, Chemetall's expert engineers and scientists provide process simulation, analytical testing, and in-field assessments.

"We are excited to return to the Coating show and share Chemetall's outstanding new technologies that were developed to improve performance, reliability and cost to meet industry's requirements. Our partners appreciate the high performance of our products as well as the knowledgeable technical service that we offer," said Suresh Patel, Business Manager, General Industry. Chemetall will promote their standard-setting new technologies and comprehensive advanced pretreatment line of EPP and Oxsilan. In addition, Gardobond® AP 9811, a non-phosphorous pretreatment for 3-stage spray washers that is compatible with mild steel equipment and typical city water, will be featured.

Chemetall has been developing, manufacturing, and supplying state-of-the-art specialty chemical products since 1909. The ISO 9001 company offers a wide spectrum of products ranging from metalworking fluids and drawing & stamping compounds to cleaners, rust preventatives and surface treatment chemistries. Chemetall's integrated products, chemical management systems, process equipment, and technical service programs deliver efficient and cost effective solutions for industrial manufacturing needs. Expect more with Chemetall.

Chemetall is a world-class specialty chemical company and a global provider of chemical technologies based in Frankfurt/Main, Germany. In addition to the North America headquarters in New Providence, New Jersey, other locations in the Americas include Jackson, Michigan; LaMirada, California; Bramalea, Ontario; Jundiai, Sao Paulo, Brazil; and Queretaro, Mexico. Chemetall is a division of Rockwood Holdings Inc., a global specialty chemicals and advanced materials company traded on the New York Stock Exchange.
