Stubborn soils in hard-to-reach places are no match for Chemetall Oakite FiSan Gel Clean

New Providence, New Jersey -- Chemetall Oakite, a leader and innovator in cleaners and sanitizing chemistries, introduces Chemetall Oakite FiSan Gel Clean, a heavy-duty alkaline cleaner for steel and stainless steel food contact surfaces.

Chemetall Oakite FiSan Gel Clean, with its blend of alkalies, synthetic detergents, and thickeners, penetrates soils and then rinses off completely. Non-flammable FiSan Gel Clean is free from petroleum distillates and chlorinated solvents.

Julia Murray, Vice-President of Technical Marketing, explained, “Chemetall Oakite FiSan Gel Clean is ideal for removing accumulated food deposits, polymerized vegetable oils, and product spillage soils. Food processing equipment with difficult to reach and clean surfaces, such as those used in inspection and processing, can be cleaned easily and effectively with Chemetall Oakite FiSan Gel Clean.”

Chemetall Oakite, with headquarters based in New Providence, NJ, has been developing, manufacturing, and supplying state-of-the-art specialty chemical products since 1909. The QS9000/ISO 9001 certified company offers a wide spectrum of products ranging from cleaners, sanitizers, chain lubes, additives, and defoamants to complete available water and waste treatment programs. Chemetall Oakite’s integrated products, chemical management systems, process equipment, and service programs facilitate the achievement of many industries’ processing needs.

Chemetall Oakite, a world-class specialty chemical company with subsidiaries throughout the world, is a member of the Chemetall GmbH Group, a renowned international corporation.
