Tough soils are no match for Oakite® FiSan OCR

New Providence, New Jersey – Chemetall Oakite, a leader and innovator in surface treatment chemistries, has formulated Oakite® FiSan OCR, a detergent that removes tenacious soils from a multitude of hard-to-clean surfaces in food processing and paper mill plants.

Highly alkaline Oakite® FiSan OCR clings to contaminates with a super foaming action that rinses completely in water. Water conditioners were added to Oakite® FiSan OCR to make the detergent effective in hard and cold water. Oakite® FiSan OCR rinses off so completely that the resulting surface is free from film or residue.

“Chemetall Oakite products, like Oakite® FiSan OCR work hard, in order to reduce the amount of labor needed,” said Julia Murray, Vice President of Technical Marketing. “Expended energy is also reduced, since Oakite® FiSan OCR rinses easily in cold water. Run-off is reduced due to the product’s foaming action. All these reductions result in increased savings for our customers.”

Murray added, “Chemetall Oakite has built our reputation on the reviews of our customers. We listen to their needs and work hard to fulfill their requirements. Performance, ease of use, environmental compatibility, and cost are all key factors in the development of each of our products. This results in customers whose expectations have been meet and even exceeded.”

Chemetall Oakite, with headquarters based in New Providence, NJ, has been developing, manufacturing, and supplying state-of-the art specialty chemical products since 1909. The ISO 9001 certified company offers a wide spectrum of products ranging from cleaners, sanitizers, chain lubes, defoamants, and water and waste treatment programs to complete product offerings. Chemetall Oakite’s integrated products, chemical management systems, process equipment, and service programs facilitate the achievement of many industries’ processing needs.

Chemetall Oakite, a world-class specialty chemical company with subsidiaries throughout the world, is a member of the Rockwood Specialties Inc., a renowned international corporation.
