

Metalworking Coolants

	Grinding	Drilling	Milling	Tapping / Threading	Turning	Broaching
SYNTHETIC FLUIDS						
Tech Cool® 3700 Grinding fluid for ferrous metals	+					
Tech Cool 35618 Light/medium duty machining fluid for aluminum alloys		+	+		+	
Tech Cool 35628 Medium duty machining fluid for ferrous metals		+	+	+	+	
Tech Cool 35629 Premium high lubricity fluid for use on ferrous and aluminum alloys		+	+	+	+	+
Tech Cool 35630 Premium high lubricity fluid for use on ferrous and aluminum alloys		+	+	+	+	+
SEMI - SYNTHETIC FLUIDS						
Tech Cool 35100NB Low oil content multi-metal safe machining fluid	+	+	+		+	
Tech Cool 35200 Medium oil content multi-metal safe machining fluid — excellent cast iron fluid		+	+	+	+	
Tech Cool 35035NB Medium oil content multi-metal safe machining fluid — highly versatile coolant		+	+	+	+	
Tech Cool 35048 High oil content multi-metal safe machining fluid — excellent for aluminum and its alloys		+	+	+	+	
Tech Cool 35048BF Boron free, high oil content, safe for multi-metal, machining fluid — excellent for aluminum and its alloys		+	+	+	+	
Tech Cool 35052 Premium high oil chlorinated EP multi-metal safe machining fluid		+	+	+	+	+
Tech Cool 35052CF Premium high oil content multi-metal safe machining fluid that can be used on stainless steel and exotic alloys		+	+	+	+	
SOLUBLE OILS						
Gardocool® C9176 Medium duty phosphorus EP multi-metal safe machining fluid		+	+	+	+	+
Tech Sol 4010 Medium to heavy duty chlorinated EP multi-metal safe machining fluid		+	+	+	+	+

Meet Your Needs With Our 6 Point Total Value Proposition

- Point 1.** Global Specialists Locally Available
- Point 2.** Comprehensive and Focused Expert Support
- Point 3.** Integrated Portfolio of Innovative Products
- Point 4.** High Quality Standards
- Point 5.** Fast and Accurate Labs
- Point 6.** Open Collaboration for Efficient Process Performance

Chemetall has been innovating, developing, manufacturing and supplying best-in-class Specialty Chemicals for Metal Fabrication and Finishing Processes for over a century. Industries such as aerospace, aluminum finishing, automotive, coil and cold forming have relied on Chemetall's technologies to achieve their processing needs and requirements. Our approach to chemistry is very special. We support chemical innovation in everything we do and are fully dedicated to the success of our customers!

Cut it. Clean it. Coat it. Control it. Conserve it.® with us!

Chemetall is recognized by Frost & Sullivan with the 2014 North American Metalworking Fluids New Product Innovation Award.

Chemetall understands its customers' needs and engineers truly superior solutions. Let us show you how our full line of innovative metalworking fluids can give your process the impact you are looking to achieve.

Chemetall is proud to serve North America from the following locations:

North American

Headquarters

675 Central Avenue
New Providence, NJ
07974
908-464-6900
Toll-free: 800-526-4473
Fax: 908-464-7914

Chemetall Canada

115 East Drive
Bramalea,
Ontario L6T 1B7
905-791-1628
Toll-free: 877-311-1471
Fax: 905-791-1459

Chemetall Mexicana, S.A. de C.V.

Avenida El Tepeyac
No. 1420-B
Parque Industrial
O'Donnell-Aeropuerto
El Marqués, Querétaro,
CP 76250 México
52-442-227-2000
52-442-227-2001
Fax: 52-442-227-2002

Chemetall U.S.

1100 Technology Drive
Jackson, MI 49201
517-787-4846
